

Pentewan Valley Parish Council
Climate, Ecology and Environment Advisory Committee

Meeting of the Climate, Ecology and Environment Advisory Committee, held on Teams

Date: Tuesday 7th November 2023 - 7pm

Present:

George Muskett
Steve Street
John Sundercombe

Apologies: Anthony Hereward
Francis Browne
Miranda Smith

White River Project. A date for the next meeting has now been set for 9th January 2024 and the CAP has initiated a meeting with SWW for 22nd November. Sarah Scoltock, the Community Link Officer is looking to access the Community Capacity Fund for the initial project design and feasibility work when the specification for this is available.

Field at London Apprentice. Francis and George have been progressing this project and met with the owner, Stephanie Hutchings, her partner and Adam Gater her contractor on 23rd October. The layout, tree species and aftercare regime were discussed and it was agreed to send a revised layout plan to Stephanie as she wished the majority of the trees to be on the road side of the access track. This was sent on 30th October and we have now received her consent to progress the project on her land. Those present agreed that the proposal should now be submitted to the Parish Council

Plan Review and new projects. Nothing further has been done on this at present.

Neighbourhood Development Plan. The analysis of the consultation responses has been received and various themes will now be worked up on a template to inform the next steps.

Menagwins. The proposed weed clearance did not go quite as planned on 20th October, but some work on this has been undertaken. It will probably need another session prior to planting. Miranda is to be in touch with Sarah at Pengelly's to see when plants are available and when planting could take place.

Weighbridge Office. A letter of support has been sent to Pentewan Old Cornwall Society by Pentewan Sands for the use of the old weighbridge office as a museum,/information centre.

Signage. No further progress as yet.

AOB. Steve gave a short presentation of the Teams meeting he attended on the proposed Par Desalination Plant on 24th October.

Date of next meeting: Monday 11th November 2023 7pm.
